

Give them **HELP** Before they **YELP**

HELP YOUR CUSTOMERS COMPLAIN

Customers love to complain...but not in person. In today's online driven world, negative reviews hurt your business more than anything else. Help your customers complain discretely and directly to management instead of Yelping out to the rest of the world.

By giving them the tools to send you instant Feedback that goes directly to designated employees, you can take care of issues and make customers happy before they leave.

Know Now!

Search for Give Feedback at:

How Feedback Works

- 

Register your business with Feedback.
- 

Let your customers know that they can now send your Managers instant Feedback during their visit to your establishment and receive an immediate response.
- 

Your customers will utilize Feedback to let you know about their experience with your business in real time.
- 

Your designated employees will receive instant notifications when Feedback is sent by your customers.

Your employees can now respond to your customer either via the chat feature in the app, by calling the customer and also email.

Any issues can now be solved in real time before your customers leave your business unhappy.

Ways Your Business Can Inform Your Customers About Feedback
